Smart Business Automation Template — Complete User Guide

■ WHAT'S INCLUDED IN THIS TEMPLATE

- Dashboard Weekly KPI cards + auto sales summary
- Inventory Tracker Stock levels + low-stock alerts
- Daily Sales Log Transaction recording + auto totals
- Staff Schedule Weekly shifts + hours calculation
- Reports Tab Auto P&L; + performance indicators

- Yellow cells = Enter your data
- Green cells = Calculated automatically

STEP 1 — OPEN THE FILE

- Upload the .xlsx file to Google Drive
- Right-click → Open with → Google Sheets
- Or open directly in Microsoft Excel
- Enable editing if prompted
- Save a copy for your own use (File → Make a copy)

STEP 2 — DASHBOARD TAB

The Dashboard is your main control center. It shows real-time summaries from all other tabs automatically. You do NOT need to enter data here — it updates as you fill in the other tabs.

Card	What it shows	Source
■ Today's Sales	Total daily revenue	Daily Sales tab
■ Low Stock Items	Items below minimum level	Inventory tab
■ Staff Today	Staff marked as Working	Staff Schedule tab

STEP 3 — INVENTORY TAB

1. Enter your item names in column B (Item Name)
2. Select the category from the dropdown in column C
3. Set the current stock quantity in column E (yellow)
4. Set the minimum stock level in column F (yellow)
5. Enter the unit cost in column H (yellow)
6. Status column auto-updates: ■ OK or ■■ LOW
7. Total value calculates automatically in column I

■ *TIP: Update inventory quantities at the end of each day or week to keep the Dashboard alert accurate.*

STEP 4 — DAILY SALES TAB

1. Enter each sale/transaction in a new row
2. Column C: Item or service name
3. Column D: Category (Food / Beverage / Dessert / Takeaway / Delivery)
4. Column E: Quantity sold
5. Column F: Price per unit (\$)
6. Column G: Total auto-calculates (Qty × Price)
7. Column H: Payment method (Cash / Card / Online)

8. Column I: Time of sale
9. Row 33: Daily total auto-calculates

■ *TIP: Clear rows at the start of each day and copy the previous day's total to the Dashboard weekly summary.*

STEP 5 — STAFF SCHEDULE TAB

1. Enter staff names in column B
2. Enter their role in column C (Manager / Chef / Cashier / etc.)
3. For each day (Mon–Sun), select from dropdown:
 - Working = 8 hours counted
 - Half Day = 4 hours counted
 - Off = 0 hours
 - Training = 0 hours (logged separately)
4. Column K auto-calculates total weekly hours per person
5. Row 13 shows total hours for the whole team

STEP 6 — REPORTS TAB

The Reports tab is fully automatic. Once you fill in Daily Sales and Inventory, this tab calculates everything for you:

- Total Revenue for the week
- Total Expenses entered in Dashboard
- Gross Profit (Revenue – Expenses)
- Current Inventory Value
- Net Profit (Gross Profit – Inventory Cost)
- Profit Margin % (auto-calculated)
- Best Day & Worst Day Sales
- Average Daily Sales & Order Value
