|               |                                                                               |
|---------------|-------------------------------------------------------------------------------|
| <b>Step 1</b> | <b>Download</b><br>Download the file after purchase.                          |
| <b>Step 2</b> | <b>Open</b><br>Open in Google Sheets (File → Import) or Excel.                |
| <b>Step 3</b> | <b>Fill &amp; Go</b><br>Fill YELLOW cells — everything updates automatically. |

## What's Inside (5 Tabs)

|                             |                                                                  |
|-----------------------------|------------------------------------------------------------------|
| <b>Dashboard</b>            | Retirement overview: FIRE number, progress, and years remaining. |
| <b>Accounts</b>             | All retirement accounts: 401k, IRA, brokerage, pension.          |
| <b>Projections</b>          | Year-by-year projection of portfolio growth to retirement.       |
| <b>Budget in Retirement</b> | Estimate your monthly retirement expenses.                       |
| <b>FIRE Summary</b>         | FIRE number calculation and retirement readiness summary.        |

## Key Features

- FIRE number calculator (25x annual expenses rule)
- Track all retirement accounts: 401k, IRA, Roth
- Year-by-year portfolio growth projection
- Employer match tracking
- Retirement budget expense planner
- Years to retirement calculated automatically
- Works for early retirement (FIRE) and traditional
- No financial advisor needed for planning

## Color Guide

- **Yellow cells** = Enter your data here
- **Blue/colored cells** = Formulas (do not edit)

- **Green rows** = Completed / Paid / Active
- **Red rows** = Overdue / Unpaid / Urgent

### Pro Tips

- The 4% withdrawal rule means you need 25x annual expenses saved.
- Maximize employer match first — it is free money.
- Max out your Roth IRA every year if eligible.
- Even increasing contributions by \$100/month can shave years off your date.
